

# THE RED BALL EXPRESS

Editor A. Bruss  
Assist Editor D. Shippy  
Publisher R.Careaga  
3 November 1967

FBI Agents JOSE  
Curly  
CIA Agent Bruss  
CID Agent Cate

+++++

## APOLOGY

Due to the shortage of our newspaper staff, the Red Ball Express is late in being published. We hope our readers understand as our Chief Editor was on R&R to Hong Kong (Where he left his heart). Another member of the staff has left to crew our pride & joy, RED BALL 731. And finally Slippy Dees has been deported to the states. We welcome a new member to the staff, Sgt "Curly" Shippy.

Buy US Savings Bonds... Invest in your countries future, it's your future also.

We have a dictionary in our office now, so maybe our spelling will improve. ( I doubt is, JOSE doesn't know how to use it yet...Ed)

## COMMENT from the TOP

The Red Ball Express is now a high flying, freight toting aircraft as well as a free-wheeling newspaper. We are making gains in bringing needed parts and tools home in Red Ball 731. It is a tribute to the 390th that this is the best looking and best flying ship on the line.

— Major Rhodes

The fearless medics pulled a fast one payday and checked shot records in the pay line.

## ORDERLY HOUSE NEWS

If going on R&R over payday, come in for a partial pay request no later than the 15th of the month.

The Orderly House has acquired a gook-hating watchdog.

Mary Poppins for '68

## WELCOME

The Red Ball welcomes the newest member of the Traveling Circus, SSgt Perez. Sgt Perez will act as First Sergeant until Sgt Furgason Returns,

## A WORD FROM THE BOSS

After 18 days of assignment, I have concluded that the 390th is the finest outfit of its kind in RVN. I have also concluded that in our major effort to perform high quality work on A/C we have sometimes neglected our personal appearances and our living & work areas. Clean work areas and quality work go hand in hand, so let's take a close look at our quarters and work area to bring them up to the high standards which show in our A/C work.

— Major Rhodes

## ELECTIONS

Sp/6 Cate did not run in the last elections here. He didn't have his required 6 months residence in Ninh Hoa. However he and Bruss did vote.

## TELEVISION

Batman is off the air over here.

The Fugitive is a free man in the States.

Sgt Sanders on Combat still hasn't reloaded his machine gun.

Matt Dillon is still the fastest gun in Dodge (major Rhodes is the fastest gun in the 390th).

To whom it may concern, we didn't want to move. — Bruss & JOSE

MAINTENANCE TIPS

The 390th TI Section would appreciate if a serial number Check List be taken after every PE. It would help keep the historical records straight.

7808 is not the cheapest stuff around, in fact it is damn expensive as well as hard to come by. There is gross misuse of the important oil. Let's cut taxes and use the proper items the Gov. has invested such as on guns!

The Feeler Gauges are going to pot. How about keeping them clean and oiled. Remember that you can't sand the rust of a feeler gauge.

ALLIED SHOPS

TECH SUPPLY — Will you come in and check on parts for your ship each day. Parts are starting to come in now that 339th is open for business again. If parts are not picked up in 5 days they will be put in stock or issued to other ships (that is unless you ask for your parts to be held). Don't leave 979's on the desk when no one is around because they may get lost or thrown out. On EDP's, make sure you get the DOC number for the EDP.

MOTOR SHOP — No comment from Willie.

PROP & ROTOR — No comment from Guinter.

TIN BENDERS — Our shop is very short handed. We request that crewchiefs avoid getting shot as much as possible.

REPAIR WAGON — The Repair Wagon is still operating but not for long. Sp/5 Ward has only 44 days and a duffle bag drag to ETS.

SPECIAL TOOLS — Perrillo would like his special tools returned when you are done with them, he's trying to account for them so new ones can be ordered. Sodas are still being sold.

ELECTRIC SHOP — Sp/5 Stamber says he's short, just 23 days and a duffle bag drag.

UNIT SUPPLY — Sheets will be changed on Fridays from now on at 1300 hrs (1:00 PM for civilians). Sgt Hoy has the name tags everyone ordered, be sure to pick yours up. Sgt Hoy says he checked and we are not authorized Jungle Hats. If you want any wings (metal or cloth) check with Sgt Hoy.

UNIT FUND

At the meeting of the 48th Unit Fund Council, the purchase of a Popcorn Popper was made. This was very thoughtful since everyone likes popcorns at a Circus.

NEW AREA

Completion of the new living area is still a long way off but progress is being made. The New Mess Hall pad is started now. All good things take time.

The Red Ball received some Christmas music so those who will be here for the Holidays can fake it a little.

Caution to all Turkeys, Thanksgiving is coming.

WEATHER

The Red Ball still predicts Cloudy with occasional Showers so keep your poncho handy.

WANT ADDS

Wanted: Secretary, 21 Blond, and about 38-24-36. Contact the TI's.

Wanted: Mechanics of all sorts. Also Sheet Metal men, Electricians, Tech Xxxxx men, and most important, TI's. (If we don't get someone in TI soon, Bruss won't be able to go on R&R again and he would probably be very hard to live with). Contact Major Rhodes, 390th Ring Leader.

ATTENTION

Be sure to check the Guard Roster everyday, Its been changing twice a day lately.

SADNESS

Sadness is a hungry NCO who wants to eat breakfast but can't because his Mess Hall is locked.

CHURCH SERVICES

Protestant Services are still held at the same place and at the same time, 10:00 PM.

Catholic Services are in doubt because the Catholic Chaplin is being transferred.

Above is an Ink Blot test. We will be asking reactions later.

## PARTY NIGHT

The newly promoted men of the Traveling Circus are throwing a party tonight in the Big Top. The Red Ball congratulates the following and thanks them for the party:

Sp/6 Careaga

Sp/5 Damroth

Sp/5 Gibbs

Sgt Hoy

Sp/5 Jeffery

Sp/5 Stambor
